June 2020 Rollin' Oldies Newsletter

A memo from your President June 2, 2020

I am sending this memo to the membership of the Rollin' Oldies Car Club of Lebanon to inform you of the latest news regarding our Car Show, scheduled for Saturday, September 19, 2020.

As you know, we are currently in the middle of the Corvid-19 Coronavirus Pandemic that has changed everyone's lives. Your Rollin' Oldies Board met this afternoon to discuss the future of this year's car show. We made the unanimous decision to cancel this year's show because of what is going on in our country as well as the rules/guidelines specified by our state officials. It's fairly apparent that we would not be able to have a successful show this year.

We have scheduled next year's show for Saturday, September 18, 2021 and we will do everything in our power to make it the best show ever.

We also made the decision to cancel the Rollin' Oldies Club picnic, scheduled for Wednesday, August 5, 2020. Let's all hope and pray that next year will be much better. Please stay safe and have as great a summer as possible.

Cruise-on,
David Faller, President

A Call for Newsletter Articles

With our general meetings and most car activities on hold, the Newsletter is seeking articles. Any photos or text about working on your cars, cruises, or other car-related adventures would be appreciated.

Sock it to me!

We have an ongoing challenge with the Street Masters to gather socks for a charity. Continue to collect socks. When meetings resume they will be collected.

Dottie brought up information regarding the Veterans Home in Lebanon that they would like to have the club do a cruise at their facility. Information will be given when it happens. There will be one this Friday at 2:00 that the Street masters will be organizing.

Member's Article

(I am starting the initial article with my own project. I encourage you to send photos or an article for the Newsletter. – Editor, Lou Dupuis)

For the last two and a half years I have been working on a T-roadster style car. It has a Speedway chassis, SBC 350 engine, and a fiberglass body.

During summer and fall of 2019, it was road-tested while still in in 'primer'. Carburetor problems, rear brake problems, a radiator hose coming undone, the windshield falling-out while driving, and a couple leaks were experienced during this testing.

Since that time I have corrected the problems (I hope!), and performed the body work. Currently I am prepping the body, frame, and engine for paint this summer.
