## The Rollin' Oldies General Meeting for September in River Park, September 1, 2020

The meeting was brought to order by President Dave Faller at 6:35p.m. He led us in the flag salute. He asked if there were any new members; one was joining as he spoke. Lynn Piha, who drives a 1967 Ford Mustang. He talked about himself and we welcomed him.

Dottie Andersen, Secretary Pro-tem took the minutes for Lorna Sebastian. Linda Meredith had a copy of the August newsletter. She asked if there were any questions about the minutes from August. Being none the minutes stood. Linda also had the birthday and anniversaries for September. She named them and we sang for them.

Treasure Linda Meredith gave the financial report.

Vice-President Carol Hood thanked everybody for coming and for the sock donations. She then gave us a count-down: Feb. - 35 pairs, Mar. -99 pairs, June – 29 pairs, Aug. – 35 pairs, totaling 198 pairs. This is not including what came in tonight.

Carol also said the Canby car show had 580 cars. The Lyons car-show on 10-3 is still on. Russ says the Santa-Cruise on 12-5 is still on. Rich Baily says the Winter Rod and Speed show is still on January 15 and 16, 2021. Rich Bailey had the virus. He was in the hospital, then went home. He is back to racing. Carol said with all this going on he has lost his voice.

Carol hood told, us a story relating to Roger Billings. On August 12th, Roger had surgery. On the 13th Carol sent him a get-well card. The card came back. She checked the address, which was correct. Carol went to the post office and found out it was a decoration on the card, also not enough postage, so she paid what was due and re-sent it. A couple of days later it came back with no explanation. Back to the post office she went. They were puzzled; they put the card in a manila envelope and sent it off, with no charge to Carol. She is now a lady in waiting...

Sheila Peterson who is in charge of Membership said there were 35 members attending.

Cruise-master Tom Hinckley had a short report.

**High Speed Driving**

In 1904, The New York Times reported on a debate in Paris between a brain specialist and a physician about the dangers of driving automobiles at high speeds—because the brain can't keep up. "It remains to be proved how fast the brain is capable of traveling," reads the article. "If it cannot acquire an eight-mile per hour speed, then an auto running at the rate of 80 miles per hour is running without the guidance of the brain, and the many disastrous results are not to be marveled at."

(I have seen people at slower speeds than 80 mph whose minds could keep up. Just think if they had texting in 1904.)
