Car of the Month, Derek and Melody Hutchinson's 1955 Chevy

I headed over to buy my dream car with my sister last September 11, 2021 from Just Used Cars in Bend on Division. Derek was at the Millersburg car show. The interior and the car were in excellent condition. So far Derek and I have gone to Kool April Nites, Puyallup, and Hot August Nights. We won a Trophy in Florence in June and have been to many

car shows this summer with our friends the Walters, Phillips, and Hillary's. We joined Rollin' Oldies and we're having lots of fun.

MY INCREDIBLE DISCOVERY

By Neal Hubbard

(file photo)

When I was young, 21 or 22, I purchased a 1951 Chevrolet coupe. I was selling my car and needed to replace it, or I'd be on foot. I saw an ad in the paper describing an eleven-year-old Chev with a new motor for sale. The seller let me take it for a test drive and I liked it because it ran so well. He wanted \$350 for it; I gave him the money and it was mine!

The back story was: the owner was the head engine builder at Lane Auto Parts in Eugene. He built and installed the engine as a car for his daughter to drive. Soon after that, he found out she started dating an ex-con that was just released. He told her "If you don't quit dating him I'll sell your car and you'll be on your own". Well, she didn't stop dating him, so he sold me the car!

The car was in pretty nice shape. The engine was a 271 Jimmy straight six out of a truck. He totally redid that engine plus he balanced and blueprinted it. The thing had plenty of power and it ran smooth and quiet. The trans was a Chev three-on-the-tree. I drove the little Chev for about a year until I happened to see a 1958 Chevrolet I just had to have. I sold my little 51 to a guy in Eugene. My wife and I later left Eugene and settled in Benton County.

Fast-forward to 2022; we went to the car show in Independence this week-end. I was walking around looking at all the cars, and I spotted a 51 Chev coupe. It was red,

not two-tone green like my old Chevy. I found the owner. We talked about his car, and low and behold, we discovered it used to be mine 60 years ago!!! I had sold it to his dad back then, and now it was his. He told me it now had 94k miles on that engine. I could hardly believe after such a long time we would meet again!
